Detecting Deception & Risk: Behavioral Psychology for Executives

Steven David Lampley is a former undercover SVU detective, bestselling author, and nationally recognized expert in deception detection and behavioral analysis. His work has been featured in The New York Times and The Telegraph, and he has appeared more than seventy times as a behavioral expert on Crime Stories with Nancy Grace. Steven has delivered programs to standing-room-only audiences nationwide, providing leaders with actionable insight to identify deception, uncover hidden risk, and make confident decisions. His presentations translate decades of investigative experience into practical strategies for high-stakes professional environments.

Steven's highly-acclaimed program helps executives and management gain actionable insight into human behavior to uncover deception, identify hidden threats, and make confident, high-stakes decisions. Drawing on decades of investigative experience, this program equips executives and leadership teams with strategies to protect people, reputation, and organizational performance.

KEY TAKEAWAYS

- Identify reliable indicators of deception in professional environments
- Strengthen leadership decision-making under uncertainty
- Improve hiring, negotiation, and investigative effectiveness
- Understand behavioral indicators of credibility and risk

Steven David Lampley has delivered standing-room-only presentations at major venues including the Gaylord Opryland Convention Center, Tahlia Theater in Chicago, and CrimeCon in New Orleans. He has also spoken to audiences at numerous national and international colleges, universities, and professional organizations. Known for translating decades of investigative experience into practical strategies, Steven engages executives and leaders with actionable insights on detecting deception, uncovering hidden risk, and making confident decisions.
