KATHY JONES

Saturday, November 29, 1969, twelve year old Kathy Jones, Lutie Street, left her home walking to the RollerDrome to skate. She never made it because she was abducted, tortured, and then murdered. Her body was found a couple of days later in a vacant field in the northwestern side of the intersection of Nolensville Road and Thompson Lane.

There are suspects, but this case is unsolved. Did/do you live in the Woodbine Area at that time and do you have information about Kathy, the abduction, torture, or murder?

Even the smallest bit of information may be just the thing needed to get justice for little Kathy, justice she so rightly deserves.
